12. (New) A kit for use in diagnosis of psychosis, comprising a sample of anti-Cw antibody, a detector that binds to anti-Cw antibody; and instructions for utilization of the kit according to the method of Claim 1.
- AT
13. (New) The method of Claim 1, further comprising utilizing a kit, comprising a sample of anti-Cw antibody, a detector that binds to anti-Cw antibody; and instructions for using the antibody and detector to diagnose a predisposition to psychosis.

REMARKS

Claims 1-11 are pending. Claim 10 has been amended to incorporate in the kit, instructions for utilizing the kit. New claims 12 and 13 have been added. Support for these claims can be found in the Specification page 2, lines 17-21. No new matter has been added.

Restriction Requirement

Applicant affirms the election of Group I (Claims 1-10) made during a telephone conference with the Examiner on April 12, 2001. Applicant reserves the right to file a continuing application or take such other appropriate action as deemed necessary to protect the invention of Group II. However, Applicant traverses the restriction between Group I and Group II and rejoinder of the two groups is requested.

Applicant traverses the Restriction Requirement on the grounds that the Groups as defined by the Examiner do not represent distinct inventions. Specifically, Applicant proposes
